Boston, Mass., Oct. 12.—On account of today's holiday, the throw for the Braves' field for the fourth game of the world's series and the last in which the players' share in the receipts broke all previous records in the history of baseball. The outfield stands were jammed, while scores perched on the back field fences.

Boston won again today in a hard-fought, two-to-one game, and now has to win only one more game to end the series and become world's champions. The game was a pitchers' battle throughout, between Chalmers and Shore.

Tomorrow the teams shift to Philadelphia for the fifth game of the series.

## HEAVY RAIN FELL OVER THIS SECTION

**BEGAN FALLING EARLY THIS MORNING AND HAS CONTINUED THROUGHOUT MOST OF THE DAY. WILL INJURE COTTON.**

Rain which began falling here early this morning, has been general over this entire section of the state and will injure the cotton crop to some extent.

The rain will also prove a test for some of the roofs on buildings in the area affected by the recent explosion and will also severely test the stability of some of the standing walls in the condemned buildings. Yesterday the building inspectors posted warnings and stretched ropes about the Hardy building that is to be razed, notifying the public that the walls were in a dangerous condition and liable to collapse. As soon as possible the building is to be entirely demolished and a new one erected in its place. The work of clearing the wreckage of the Pennington building is being rushed as rapidly as possible, but it will probably be the first of the year before the new building will be ready for occupancy.

## DEMANDS MORE ASSURANCE OF GERMANY

**IN NOTE TO GERMANY ON FRYE CASE, UNITED STATES ASKS IF LIVES ON AMERICAN SHIPS WILL BE PROTECTED.**

Washington, Oct. 12.—The United States in a note to Germany today, to be presented by Ambassador Gerard on the Frye case, asks that if it found it necessary to destroy American ships carrying absolute contraband if the passengers and crews will be removed to a safer place than in the small boats.

The American government accepts the German suggestion in reply to the American proposals concerning a commission to fix the damages for the Frye, agreeing to dispense with the umpire and leave the case to two experts, one from each country.

**Hotel Man Here.**  
Col. C. M. Bryan who operates the Randol Hotel in Ardmore, and the Stuart Hotel in Waurika, is here from the latter place. Col. Bryan was in Ft. Worth when he heard of the Ardmore explosion and by use of the long distance telephone learned of the extent of the damage.

## U. S. JOINES HAS BOUGHT HOOVER RANCH

**ARDMORE CITIZEN NOW OWNS TWENTY-FIVE THOUSAND ACRES OF LAND, ALL IN ONE BODY.**

U. S. Joines of this city recently purchased from D. H. Hoover of Wynnewood, ten sections of land in the northwest corner of Murray county and known as the Hoover ranch. Mr. Joines now owns nine sections of land in Carter county and thirty sections in Murray county, all in one body. The total area of his ranch includes 24,960 acres, and it is well stocked with cattle and horses. The consideration for the Hoover property is not made public, but it is approximately \$40,000 and was a cash deal.

Mr. Joines some months ago sold his Jefferson county ranch to Burk Burnett and in the sale he reserved one-half of the mineral rights. A deal has been made with St. Louis parties to drill on the Jefferson county lands and Mr. Joines has declined several offers which have been made him, to drill oil tests near Homer in Carter county, on his ranch lands.

## OBREGON SAYS VILLA MAY BE KILLED SOON

**CARRANZA'S CHIEF LIEUTENANT SAYS HE WOULD NOT BE SURPRISED TO HEAR OF VILLA'S DEATH AT HANDS OF OWN MEN**

Tampico (via Laredo) Oct. 12.—General Obregon awaiting the arrival of his first chief, Carranza, today, while not being willing to discuss the recognition of Carranza by the United States, told the Associated Press that there were men in Villa's army who would welcome the news and would abandon Villa in the fight.

"I will not be surprised to learn of Villa being killed within twenty days by his own men," Obregon said. He said that two of Villa's "strongest and most dangerous" men, Lombardo and Angeles, have deserted him.

**Carranza at Tampico**  
Laredo, Texas, Oct. 12.—General Carranza and party arrived at Tampico today and received a hearty welcome. Carranza is to tour the northern Mexican states.

## INVASION OF SERBIA BEGUN BY BULGARIANS LAST NIGHT

**SERBIANS, HOWEVER, DECLARE THAT ALL BULGARIAN ATTACKS HAVE BEEN REPULSED, AND FIGHTING HAS BEEN LAUNCHED NORTH OF NISH.**

Few Details Received of Bulgarian Movement Against Serbia, Although it Has Been Expected for Several Days—Greek Premier's Speech Regarded as Favorable to Allies, and Roumania's Participation on Side of Entente Allies is Assured, Says the Roumanian Premier—Germans Claim that they are Advancing Steadily South of the Danube, While Nish Claims Repulse of the Teutons at Several Points—Germans Continue to Hammer Away at Dvinsk, But Russian Victory at Stripa River is Regarded as Important to the Allies

## HUNGRY HORDES WHILE MONEY IS PLENTIFUL

**OKLAHOMA PEACHES ROT IN THE ORCHARDS WHILE NEW YORKERS PAY SIXTY CENTS A DOZEN FOR THEM.**

J. A. Ford of Pauls Valley who is somewhat interested in fruit says that his peaches this year netted him 40c a bushel and that he did fairly well with his orchard lands. He marked each basket of his fruit and asked the purchaser to let him know what was paid for the fruit. In reply to this request he learned that in Michigan the peaches sold for \$1.60 a bushel, which was just four times what he received for them.

Mr. Ford says that many peach growers have failed to find a lucrative market for their production and as a result some orchards will be cut down and the lands devoted to other crops and the trees that are not cut down will be neglected more or less. For this reason he says that now is the best time the country has ever had for setting out new orchards. He says within five years from now the country will have found a way of bringing buyer and seller together and fruit will be worth \$1 a bushel.

In the last issue of Collier's Weekly a picture is shown of several thousand bushels of fruit which went to waste at Guthrie for the want of a market. While big red juicy, mellow peaches were rotting in Oklahoma because they could not be sold for enough to pay to handle them peaches were selling in Baltimore, Philadelphia and New York at 50c a piece.

The federal government has established a bureau of marts and has placed Thomas N. Carver in charge of the bureau but the work is new and seems to be starting off rather slowly. At least Mr. Carver has not made his work felt in Oklahoma where farmers lose fortunes every year while people in other states go hungry for the very things that are wasting in Oklahoma.

The state board of agriculture of Oklahoma might be able to find a market for Oklahoma products, but the trouble lies in this fact that whoever is appointed by the state board will be a countryman, when he gets to the city he is bewildered, he does not know the tricks of the commission merchant, the commission merchant is on the ground and knows his city, the merchants and the peddlers form a pool for controlling the products of the southern farm and orchard and any man from this section would not be equipped to cope with them.

What would seem to be the proper method of making the shipments profitable would be for the railroad companies to take up the matter and establish a market bureau and make the purchases and conduct the sales.

**Birth.**  
To Mr. and Mrs. W. C. Baker, Sunday morning, a daughter, Grace Leola.

London, Oct. 12.—Few details have been received of the new Bulgarian movement against Serbia, although it has been generally expected.

Premier Zamais' speech before the Greek cabinet is generally regarded as favorable to the entente cause.

Detailed information is lacking on the German-Serbian campaign. The Germans assert that they are advancing steadily south of the Danube, although the amount of their gain is unmentioned. Nish dispatches state that the Serbians have checked the Germans at several points. Berlin announces the capture this morning of the Serbian city of Semendria, east of Belgrade.

On the eastern front the Germans are hammering away before Dvinsk, but elsewhere the Russian forces are attacking fiercely. The Russian coup at the Stripa river is regarded as important to the allies.

The Serbians declare that all of the Bulgarian attacks have been repulsed, while the fighting, it is announced, has been launched northeast of Nish.

Roumania's participation of the allies' side is assured, says a Rome dispatch, quoting the Roumanian premier.

**Bulgarians Begin Invasion**  
Paris, Oct. 12.—The Bulgarian troops invaded Serbia last night.

**Capture Many Germans**  
Petrograd, Oct. 12.—The Russian forces have pierced the German lines on the Stripa river and captured more than six thousand men, many officers and guns. The Russian advance is being pushed vigorously, says the war office.

**Resume Armenian Massacres**  
Washington, D. C., Oct. 12.—The Armenian massacres in Asiatic Turkey will be renewed with vigor since Bulgaria's entrance into the war, according to information to the state department from Ambassador Morgenthau at Constantinople. The majority of Armenians in Asiatic Turkey have been killed, he says.
